Sparton Receives Honors for Medical Design Excellence

Recognized with annual award in four of the last five years

SCHAUMBURG, Ill.--(BUSINESS WIRE)--Jun. 27, 2013--Sparton Corporation (NYSE: SPA) has again been recognized with honors by the medical design community. The latest award, in the category of In Vitro Diagnostics, was presented at an awards ceremony for the Medical Design Excellence Awards last week as part of the Medical Design & Manufacturing East Conference and Exposition in Philadelphia, Pennsylvania.

The Medical Design Excellence Awards (MDEA) program honors the highest caliber medical devices on the market today and celebrates the achievements of designers, engineers, and manufacturers. The MDEA is an annual awards ceremony that is organized by UBM Canon and recognized throughout the industry for its prestige.

"We are once again excited and proud to stand on the platform in recognition of our contributions as a design team", commented Dave Lapeus, Director of Design Engineering for Sparton Corporation in Strongsville, Ohio. "It feels great to have been recognized not only this year, but four times out of the last five years. This recognition gives credibility to the emphasis we are placing on design services for Sparton, in addition to our manufacturing services."

Sparton's design and engineering services include, but are not limited to, the disciplines of electrical, mechanical and software design with specific emphasis on medical devices in the diagnostic, therapeutic, surgical instrumentation, and laboratory fields.

"Sparton has a proud heritage in the manufacturing of full medical device assemblies, and I am happy to say that we are building a heritage on the design side", added Mike Gaul, General Manager of Sparton in Strongsville, OH. "It is great to see colleagues in the industry rewarding Sparton for our work and to have the opportunity to move Sparton to the forefront as an organization with quality design capabilities."

"We focus on the full product lifecycle," commented Cary Wood, president and CEO. "As Sparton continues to expand its capabilities across the entire Company, design and engineering capabilities continue to be a primary differentiator to our medical & biotechnology customers. This award, and those before it, shows the true capability of our design groups have and we will continue to emphasize our design and manufacturing capabilities as cornerstones of our strategic growth plan".
